- SANS 724
- SANS 434:2018
- ASTM F1959
- ASTM F2621-12
- EN 11611:2015
- EN 11612:2015
- EN 61482-1-2:2014

COMPOSITION
- 305gsm Dromex A.P.T Fabric
- 88% Cotton, 12% Nylon
- Flame Retardant Thread

SUITABLE FOR USE IN
- Substations & switch rooms
- Utilities & power generators
- Industrial electrical maintenance & installations
- Mining, chemical & refineries

PREPARED BY SHEQ SAFETY CC
NOAH LADIES ACID FLAME CONTI SUIT

FEATURES
CODE: DWL-ARC15
- NOAH acid resistant and flame retardant conti suit.
- Manufactured in reference to SANS 434,
- brass YKK zipper,
- breast pocket with flap and press stud to close,
- front jacket pockets,
- Elasticated cuffs,
- fully posted (triple stitched),
- all stress seams are bar-tacked,
- double stitched pockets,
- full swing side trouser pockets,
- ruler pocket on trouser,
- press stud above zip below collar on jacket,
- extended sleeve length & jacket length to accommodate for industrial wash cotton shrinkage,
- 50mm flame silver reflective tape around both arms, strips on both breasts, both legs and a line on the back.

FABRIC
- CS59 W8 (Flame Retardant & Acid Resistant Finish) is compliant to the requirements of type D56 of Part 4 on SANS 1387:2017 Standard. CS59 Complies to test requirements given in EN 13034 and when tested in accordance with ISO 6530 and classified as per EN 14325 meets class 3 level.

TRIMS
- All sabs compliant
- The garment is manufactured to sizes which exceed SABS 434, so that when the fabric shrinks, it shrinks into size on the arms, legs and length of the jacket.

APPLICATION
For use predominantly in areas where chemical substances and open flames are present.

**UVEX PHEOS 9192**

- Modern, fashionable safety spectacle design
- Duo-spherical lens with Uvex supravision lens coating technology
- Rimless spectacles with wide field of vision
- Permanent anti-fog on the inside
- Extremely scratch-resistant on the outside
- Completely metal-free

---

**3M SECUREFIT**

The 3M™ securefit™ safety spectacle is comprised of a rimless lens and fixed-length temple arm. An integrated side-shield is included for added protection. Temples also feature 3m pressure diffusion temple technology which helps diffuse pressure over the ear to enhance frame comfort across a diverse workforce. This innovative design promotes improved comfort and security of fit.

- Optical class 1 lens suitable for prolonged use
- Design provides excellent coverage and good field of vision
- Offers excellent protection against ultraviolet (UV) radiation
- Lightweight design (18g)
- 3M pressure diffusion temple technology for secure and comfortable fit

---

**UVEX U-SONIC GOGGLE 9308245**

- Small, compact low weight goggle
- Compatible with other PPE
- Ergonomic design with soft flexible components – adapts to any facial shape
- High mechanical strength (b: 120m/s)
- Low pressure, wide fully adjustable head strap for excellent wearer comfort
- Indirect ventilation system helps maintain a comfortable climate around the eyes

---

PREPARED BY SHEQ SAFETY CC
UVEX COM4-FIT CORDED EARPLUG

With its more compact ergonomic design, the Uvex com4-fit is comfortable for wearers with narrower auditory canals. The Uvex com4-fit has a sealed surface, preventing foreign bodies from penetrating the plug. The soft foam offers real comfort, even when worn for extended periods.

SNR: 33 DB(A) H: 33 DB(A) M: 30 DB(A) L: 29 DB(A)

Benefits overview
• Ergonomic shape adapts to the natural shape of the ear canal
• Combines optimal comfort with the highest level of protection
• X-grip technology reduces expansion pressure and therefore increases wearer comfort, even when worn for extended periods
• Easy insertion and removal
• For small to medium ear canals
• High visibility colour for easy visual recognition

UVEX COM4-FIT UNCORED EARPLUG

With its more compact ergonomic design, the Uvex com4-fit is comfortable for wearers with narrower auditory canals. The Uvex com4-fit has a sealed surface, preventing foreign bodies from penetrating the plug. The soft foam offers real comfort, even when worn for extended periods.

SNR: 33 DB(A) H: 33 DB(A) M: 30 DB(A) L: 29 DB(A)

Benefits overview
• Ergonomic shape adapts to the natural shape of the ear canal
• Combines optimal comfort with the highest level of protection
• X-grip technology reduces expansion pressure and therefore increases wearer comfort, even when worn for extended periods
• Easy insertion and removal
• For small to medium ear canals
• High visibility colour for easy visual recognition

BILSOM 303S FOAM CORDED EAR PLUG - SMALL

A skilled blend of yellow and white polyurethane foam that feels softer in both your hand and in your ear, but does not feel too tight in your ear canal. It is easier to roll-down, and once inserted properly, resists the tendency to back out of the ear canal - ensuring a tight seal for optimal protection. Its smooth, soil-resistant skin prevents the build-up of dirt on the earplug, promoting proper hygiene.

Features
• Patented polyurethane foam expands gently in the ear canal, reduces tendency to back out of the ear canal
• Smooth, soil-resistant skin prevents dirt build-up, promote proper hygiene
• Tapered bullet-shape design easier to roll-down and insert, adapts more evenly to shape of the ear canal
• Snr 33 ideal for medium/high noise environments

BILSOM 303S FOAM UNCORED EAR PLUG - SMALL

A skilled blend of yellow and white polyurethane foam that feels softer in both your hand and in your ear, but does not feel too tight in your ear canal. It is easier to roll-down, and once inserted properly, resists the tendency to back out of the ear canal - ensuring a tight seal for optimal protection. Its smooth, soil-resistant skin prevents the build-up of dirt on the earplug, promoting proper hygiene.

PREPARED BY SHEQ SAFETY CC
The Uvex phynomic foam is an ultra-light all-round safety glove. The aqua-polymer foam coating is extremely flexible, provides good grip and leaves no trace on sensitive surfaces.

**Features:**
- Flexible
- Outstanding dexterity
- Full nitrile butadene rubber (NBR) foam coating
- Good grip in wet, oily and greasy conditions
- High abrasion resistance
- Good mechanical strength
- Complies with EN 388 (4121)
- Size: 6-11

**Applications:**
- Ideal for use in wet, oily or greasy tasks where grip is needed and areas and tasks that require high abrasion resistance with good grip
- Suitable for use in engineering, maintenance and other heavy industries

**Characteristics**
- Excellent dexterity
- Excellent dry grip
- Extremely breathable
- Size 6 - 11
UVEX UNILITE 60573

Ideal for maintenance in mining, engineering and other heavy industries, Uvex unilite 6605 NBR foam coating provides excellent grip, while keeping the hands cool and dry thanks to enhanced breathability. The high degree of flexibility provided helps to reduce hand fatigue.

Benefits overview
• Sizes: 6-10
• Flexible seamless glove material
• Outstanding dexterity
• Good grip for wet, oily and greasy conditions
• High abrasion resistance
• Good mechanical strength
• En 388 (4122)

UVEX UNIDUR 60938

The HPPE and glass fibres of the Uvex unidur 6659 foam ensure very high cut protection. These mottled grey safety gloves are particularly dirt-resistant and the NBR foam coating protects against moisture.

Characteristics
• Excellent dexterity
• High abrasion resistance
• High flexibility
• High resistance time
• Excellent cut protection
• Sizes: 7-11

UVEX RUBIFLEX 60557

The new, lightweight chemical-resistant safety glove with innovative Uvex xtra grip technology combines protection and grip with exceptional comfort and flexibility. Supported chemical protection safety gloves offer outstanding wearer comfort through comfortable top-quality cotton interlock lining, which regulates temperature inside the gloves.

Characteristics
• Exceptional dry and wet grip
• Multilayer design for excellent resistance time
• Ergonomic fit
• Extremely high flexibility
• Excellent resistance to many chemicals
• Ultra lightweight design
• Cotton lining for superior water vapour absorption
• Sizes: 7-11

UVEX PROFASTRONG 60122

This sensitive chemical protection safety glove is suitable for a wide range of applications and has been particularly proven when working with acids and alkalis.

Characteristics
• Anatomic shape
• Good dexterity
• Good grip for wet surfaces
• Outstanding abrasion resistance
• Sizes: 6-10

UVEX IMPACT 1 60598

The perfect glove for the oil and gas industry: Uvex impact 1. Designed for rugged use, with velcro cuff, extra-padded palm. Back of the hand tip-protectors protect bones and knuckle joints; same applies to the reinforcements on the knuckle joints. High cut resistance and excellent grip properties make the Uvex impact 1 the perfect glove for the toughest environments.

Characteristics
• Flexible and secure grip
• Exceptional abrasion and cut resistance
• Knuckle protection
• Excellent fit
• Sizes: 7-10

UVEX PROFAPRENN 60119

High-quality unsupported chloroprene safety glove for use in protecting against a broad spectrum of different chemicals. The silicone-free safety glove provides excellent properties against chemical and mechanical risks.

Characteristics
• Good combination of flexibility and strength
• Resistant to many chemicals and solvents
• Sizes: 7-10

STIMELA XP GUMBOOT WITH WIDENED CALF

A metal free heavy duty knee length PVC mining gumboot with wide calf insert (for very large calves) with safety toe protection offering a textile anti-penetration midsole and a fully integrated metatarsal protector. 2.75kg average weight, hard wearing, excellent grip and sole support

Sizes: 04 - 13

STIMELA XP METAL FREE GUMBOOT

A metal free heavy duty knee length PVC mining gumboot with safety toe protection offering a textile anti-penetration midsole and a fully integrated metatarsal protector. 2.75kg average weight, hard wearing, excellent grip and sole support

Sizes: 04 - 13
**FOOT PROTECTION**

**GUMBOOT INNERSOLE**
- The Energizer Woolen Insole is made from highly absorbent wool and treated with an Ultra-Fresh DM-25-WP process.
- This has the advantage of fighting fungal and bacterial infections while minimizing conditions such as Athlete's Foot.
- Sizes: UK 5 – 12

**BOOT/ SHOE INNERSOLE**
- All our top socks are removable and can be easily cleaned and dried.
- All our top socks have further been treated with ultra-fresh to enhance the anti-bacterial properties of the material.
- Our top socks feature EVA foam inserts on both the ball and heel area to enhance the comfort to the wearer and increase shock absorption when walking.

**GUMBOOT FUR-LINER**
For added comfort and warmth in cold environments.

**HI-TEC CUSHION FOOT LONG/ SHORT SOCK**
- Constructed with extra cushioning on toe and heel for added comfort.
- The HI-TEC exploration sock provides long lasting comfort with features that include a rib-top which prevents the sock from slipping down and excellent protection.
- Reinforced toe and heel for added durability
- Rib-top ensures that socks stay up and unwanted dirt does not get in
- Relaxed Elastane well insert for minimum leg pressure and maximum comfort
- 85% Cotton; 8% Spandex; 7% Elastane

**SISI ANKLE SOCK**
The socks are treated with a Ruco Bach AGP anti-microbial silver based technology which utilizes nano particles of silver chloride. This same compound is applied to the latest wound dressings.
- 95% of bacteria is killed within two hours
- Comfort to the wearer, as the socks do not lead to irritation of sensitive skin
- Harmless to normal skin flora
- Environmentally-friendly
- “Antistatic” fiber refers to the anti-static silver-coated cotton stripes which are knitted into the socks.

**BIOGUARD CUSHION FOOT GOLF HOSE**
- Bio guard “Foot Fresh” Knee Length Golf Hose Cushion Foot sock

**Benefits:**
The anti-static fiber conducts electricity away from the body, through the sock and into the shoe. The anti-static effect is permanent and does not diminish over time.
